

June 2020 Newsletter

After much consideration the trustees have taken the difficult decision to close Bumblebee's due to the Covid-19 outbreak until we feel it is safe to re open. This has been a difficult decision, but one we feel is necessary in order to protect our families.

We have been keeping in touch and making sure that if they need any support we will do all that we can to help them. They are all doing amazingly in these very tough times and we are missing them so much.

Whilst we have been closed our lovely Donna has painted our walkway with an amazing rainbow to make us all smile when we walk in. (There is a lovely bumblebee on there too!)

We have had some lovely messages from our parents saying that they miss us and can not wait to return!

We hope to see you all back well and safe very soon!

About Us...
The Bumblebee Children's Charity incorporates all aspects of the child's development (physical, cognitive, social and emotional) into its programme. Every child has different needs, so the programme is designed around the individual child and related to his or her age and abilities. The staff team are always there to guide and support.

Parents/carers work with their child, usually as part of a group, using equipment, toys and songs to make the tasks enjoyable and productive. It is important that the parent and child are involved together in the learning process and all skills learned are closely related to those which serve a purpose at home.

Children attending have a range of conditions. Many have no diagnosis. The only remit is that the child has a delay in acquiring their physical skills.
