

## **Promoting health and hygiene**

### **1.11 Food and drink**

#### **Policy statement**

The Bumblebee Children's Charity regards snack and meal times as an important part of the day. Eating represents a social time for children and adults and helps children to learn about healthy eating.

#### **Procedures**

We follow these procedures to promote healthy eating in our setting.

- When a child starts to attend The Bumblebee Children's Charity, we find out from parents their children's dietary needs and preferences, including any allergies. (See the Managing Children with Allergies policy.)
- We record information about each child's dietary needs in her/his registration record and parents sign the record to signify that it is correct.
- We regularly consult with parents to ensure that our records of their children's dietary needs - including any allergies - are up-to-date. Parents sign on their registration forms to notify us of any changes to ensure records are up to date.
- We display current information about individual children's dietary needs so that all staff and volunteers are fully informed about them.
- We implement systems to ensure that children receive only food and drink that is consistent with their dietary needs and preferences as well as their parents' wishes.
- We take care not to provide food / activities containing nuts or nut products and are especially vigilant where we have a child who has a known allergy to nuts.
- Through discussion with parents and research reading by staff, we obtain information about the dietary rules of the religious groups, to which children and their parents belong, and of vegetarians and vegans, and about food allergies.
- We require staff to show sensitivity in providing for children's diets and allergies. Staff do not use a child's diet or allergy as a label for the child or make a child feel singled out because of her/his diet or allergy.
- We organise snack times so that they are social occasions in which children and staff participate.
- We use snack times to help children develop independence through making choices, and feeding themselves where appropriate.

## THE BUMBLEBEE CHILDREN'S CHARITY

*miracles in movement*

- We provide children with utensils that are appropriate for their ages and stages of development and that take account of the eating practices in their cultures.
- We have fresh drinking water constantly available for the children and adults.
- We inform parents who provide food for their children about the storage facilities available at The Bumblebee Children's Charity.
- We give parents who provide food for their children information about suitable containers for food.
- In order to protect children with food allergies, we discourage children from sharing and swapping their food with one another.
- No alcohol is permitted to be consumed or stored within the building at any time. If for any reason alcohol has been brought to Bumblebees by any staff member, volunteer, service users or visitors they will be requested to leave the alcohol in their cars.
- Staff adhere to the safer feeding and choking procedures as set out in the Safeguarding Children and child protection policy.

### Legal Framework

- Regulation (EC) 852/2004 of the European Parliament and of the Council on the hygiene of foodstuffs
